

TRAINING CURRICULUM CHALLENGE

To become eligible for deployment, members must satisfy the mandatory requirements of the WASART Training Curriculum in the areas in which they want to be credentialed. To maintain proficiency in the skills necessary for deployment, competency must be demonstrated at least every three years. Recertification may be accomplished by one of several methods; respond to two qualifying deployments; repeat the WASART course, or challenge the course with another similar course taken from a qualifying organization; show competency in an aptitude/skills test.

The Training Committee encourages members to retake the WASART courses periodically as the courses are revised and updated as new information, techniques and equipment are incorporated into the program and to re-familiarize themselves with infrequently used skills.

The Training Committee will consider each applicant challenge on a case by case basis. The decision of the Training Committee will be final.
